

HOW TO GUIDE

SecurLOCK is a FREE mobile app that allows you to control how, when, and where your debit and/or credit cards are used. It can help keep your cards safe and provide instant notifications whenever your card is used.

1.

Go to either Apple Store or Google Play Store to download the FREE app. The SecurLOCK icon looks like this:

2.

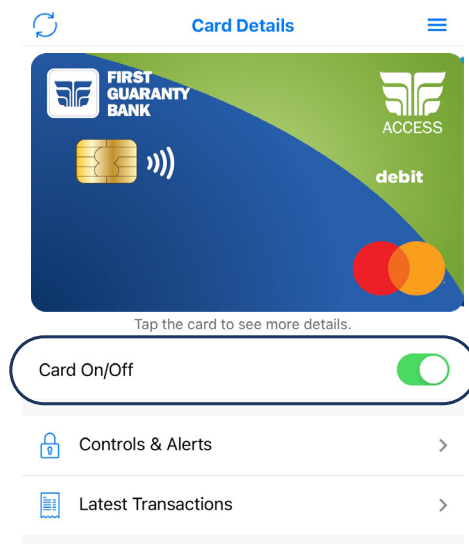

You'll be instructed to enter the full card number followed by additional authentication information. Once registered, you can begin using the app immediately.

3.

Click the Controls & Alerts tab. Here you can restrict Locations, Merchant Types, Transaction Types and Spend Limits. You can also set your Alert Preferences.

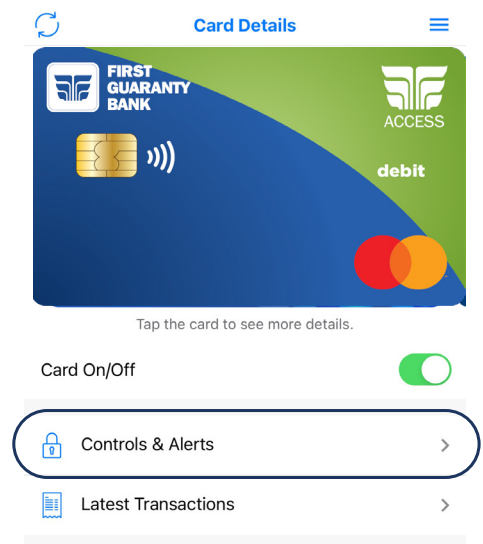

TO TURN CARD ON/OFF

Toggle Card On/Off

4.

Click Merchant Types to restrict types of merchants.

5.

Click on each category to learn more about what it restricts. For example, the Department Store category restricts the use of the card at all merchants listed under the header. To restrict this type of merchant, toggle the slider to off.

6.

Click Spend Limits and toggle to the section you want to add limits to: Per Month, Per Transaction, or both. Enter the amount then click Save.
